### PROBABLY ACCEPTED

#### Spain's Reply to American Peace Terms Are Received

#### CONTENTS OF THE NOTE ARE NOT DEFINITELY KNOWN

Washington, Aug. 6—Special—It was stated officially at the French embassy at 2 o'clock today that neither Spain's reply nor any cablegram of importance has been received. The statement is added, however, that it may arrive tonight or tomorrow.

London, Aug. 6—Special—A dispatch from Madrid says the ministerial council last night decided practically to accept the conditions of peace as laid down by the United States.

Madrid, Aug. 6—Special—Queen regent has approved the reply of the Spanish government to the United States accepting the conditions laid down by the latter under which peace will be concluded.

#### Bright Prospects For Peace.

Washington, Aug. 6—Special—There is much satisfaction here over the acceptance by the Madrid cabinet of the terms of peace offered by President McKinley. There are still some details upon which there is not a clear understanding to arrange, but the fact of Spain's ultimate acceptance is undisputed. Their official announcement of the decision of the Madrid cabinet is expected any hour. Until it comes this government can, of course, take no action in the premises, and military operations will proceed with the usual vigor. The nation is nearer peace than it has been since hostilities began, but there are yet many contingencies that may interfere with the consummation. Not until the preliminary articles are signed will any assurance be felt here that Spain will not violate her compact.

#### The Reply Received.

Washington, Aug. 6—Special—The under secretary of the French legation is credited with saying that a telegram was received last night from Madrid containing Spain's reply to President McKinley's peace terms. He would not say whether the answer was yes or no, but the general impression here is that the terms have been accepted.

#### Only a Formal Resistance.

Madrid, Aug. 6—Special—It is reported that the minister of war has received orders from the government not to force the resistance in Porto Rico to the utmost. This is at the instance of Premier Sagasta, who deprecates unnecessary life, knowing Porto Rico will inevitably fall into the hands of the Americans.

#### Coming Back From Santiago.

Washington, Aug. 6—Special—The war department has received information that the transportation of troops from Santiago to Montauk Point is now well under way. One ship load of cavalrymen left Santiago Thursday, and two or three more started yesterday.

#### Not Yet Presented.

Washington, Aug. 8—Special—At 11 o'clock the French ambassador had not visited the white house to present Spain's answer to the terms of peace. There is strong reason to believe the reply of the Spanish government is now in Washington.

#### Carlists Are Active.

Loddon, Aug. 6—Special—Dispatches from Gibraltar says the Carlist agents are active here. Representatives of an English firm have booked orders from them for 20,000 rifles and two million cartridges to be delivered in Switzerland.

#### A Wave of Prosperity Predicted.

London, Aug. 6—Special—A wave of prosperity is predicted for America by The Statist when the war with Spain is over. It says there will be a large demand for American securities in the European markets.

#### Shafter's Sick List.

Washington, Aug. 6—Special—General Shafter reports a sick list of over four thousand men.

MAJOR GENERAL SHAFTER IN THE FIELD.

Major General William R. Shafter, who captured Santiago, is, physically at least, the biggest man in the United States army. He weighs 305 pounds and is as big of brain as he is big of body. The editor of the New York Journal, who saw General Shafter in the field at Santiago, describes him as "a sort of human fortress in blue coat and flannel shirt." He also added that Shafter was "bold, lion hearted and hero eyed." He is now 63 years old, within a year of the retiring age, and yet is as vigorous as a man of 50. He has suffered considerably, however, in the hot, fever breeding climate of eastern Cuba, but while he has been somewhat indisposed the latest reports indicate that he has nearly recovered his usual health. When he rides from point to point along the line of battle, he is mounted on a massive horse 16 hands high, and is a truly imposing figure. Whether he does anything more or not in the present war he must at least be credited with having driven the Spaniards pell-mell into Santiago, despite tremendous difficulties, and with having thoroughly prepared the way for the speedy capitulation of the ex-capital of Cuba. The picture of General Shafter watering his big charger is from a photograph taken at Santiago for the New York Journal.

#### FIGHT WITH ROBBERS

Officers at Depere Pursue Two Burglars and Disable One of Them With a Shot.

Depere, Wis., August 6—[Special]—Marshal Shea and his assistants were scouring the country for miles south of the city all yesterday for burglars who entered the store of A. D. Race. Their search was fruitless until shortly after dinner, when they espied two suspicious looking characters on the river bank. When they saw the officers the men started to run, and were commanded to halt. Not heeding the order, one of the officers shot, which hit one of the men in the leg, and he was captured. The other man got away, being somewhat in the lead of the officers.

#### SPILLED A CABINET ORGAN

A Runaway Horse Responsible For a Loss to the Van Keuren Family.

Members of the Van Keuren family, who have of late resided in the Second ward, are at present mourning the loss of their family organ. Having rented a dwelling at Shopiere they decided to move there, and this week they have been busy transferring their household effects overland. Yesterday afternoon Mr. Van Keuren loaded the family organ into their wagon and started for Shopiere. Near the corner of South Main and Court streets he left the horse standing for a minute. The animal at once let fly his hind legs, and the way he went down Main street at a break neck gallop was a caution to the natives. On reaching South Third street the organ upset and was thrown several feet and smashed into a hundred pieces.

#### RELIGION IN THE OPEN AIR

Successful Gathering at the Mary Kimball Mission Last Night

Three hundred people attended the open air meeting held last evening at the Mary Kimball mission on South Jackson street. The gathering was the first of its kind to be held at the mission and all who participated pronounced it a grand success. Missionary Mary Kimball took charge of the services, preaching an excellent sermon. Miss Bertha Watkins, of Warren, Ill., presided at the organ and also rendered a solo. The lawn was decorated with Japanese lanterns and the entire affair was a decided success.

#### WEDDED AT LAKE GENEVA

Clara Ives Alfred and James P. Whyte Unite Their Destinies.

Miss Clara Ives Alfred, of Lake Geneva, who is well known in Janesville, was married Thursday evening to Mr. James P. Whyte. The bride is one of the most popular young ladies at Lake Geneva, while the groom holds a professorship in the state university at Morgantown, West Virginia. Prof. Kowaleki, leader of the Congregational choir in this city, was present in charge of the music, the nuptial event taking place in the Congregational church.

#### WEATHER FORECAST.

Chicago, Aug. 6—[Special]—Forecast for Wisconsin: Partly cloudy tonight and Sunday.

#### TODAY'S BASE BALL GAME

Good Sport Expected This Afternoon

A good sized delegation of base ball lovers assembled at Athletic Park this afternoon to witness the game between the local Y. M. C. A. team and the celebrated Page Fence Giants. The home team was strengthened by the addition of Young, of Rock Island, who occupied the pitcher's box. If the home team wins the game it will be a general surprise, as the Giants are up in the business. The line-up was scheduled as follows:

JANESVILLE.	Position.	GIANTS.
McMaster	Pitcher	Burns
Young	Pitcher	Miller
Kline	1st Base	G. Johnson
E. Brown	2nd Base	Geo. Johnson
Jeffries	3rd Base	Grant
It. Brown	Short Stop	Hines
Keeney	Left Field	Patterson
Hollister	Center Field	Wilson
Brothers	Right Field	Barton

#### CLAM SHELL MARKET DULL

Little Doing In Trade In Rock River Product

Harry Davenport, of clam shell buying fame, returned home last evening after a successful two weeks' trip on the road. Mr. Davenport reports the shell market as being dull and says that it is impossible for him to pay \$20 a ton for shells and make a profit. The business later on he expects will show much improvement. He says that plenty of good river shells abound in this vicinity and says he will pay not less than \$15 a ton for them provided they fill the bill. As yet but few have interested themselves in gathering shells in the vicinity this year.

#### TEACHERS MEET AT CLINTON

The meeting came to a close last evening and all present pronounced it one of the most successful in the history of the association. Prof. H. C. Buell, of this city, and Prof. Hutton and Prof. Upham, of Whitewater, acted as conductors. Among the teachers present from this city were: Misses Birdie Stoller, Kittle Crowley, Inez Arnold, Ethel Fisher and Jennie Eddington.

## PORTO RICO EASY PREY

### Gen. Miles Is Meeting Little Opposition In The Island

### SAN JUAN WILL BE IN HIS POSSESSION IN A FEW DAYS

Madrid, Aug. 6—Special—General Macias today sent a dispatch from San Juan to Gen. Correa saying thirty American cavalry, accompanied by natives, entered the towns of Adjuntas and Ututurde Thursday. A skirmish took place on the river Descalabrade, which crosses the main road to San Juan five miles east of Juandiaz. The Americans have disembarked and captured the light houses at Cabezas, Cape San Juan.

### Porto Rico Practically Ours.

Washington, Aug. 6—Special—The conquest of Porto Rico will be an accomplished fact before a peace can be possibly concluded, and the Spanish troops there will be prisoners of war. In less than a week the entire island will practically be in possession of the United States army, and that without a single battle. There have been a few skirmishes, and San Juan may offer a feeble resistance, but the conquest will be practically a bloodless one. As the towns are successively occupied by our troops the civil officers are sworn to support the constitution and laws of the United States, and the wheels of the government are kept in motion without friction. History records no such bloodless victories as have been won in Porto Rico.

### The Philippine Rebels.

Washington, Aug. 6—Special—There are indications of an improvement in the relations between the American forces and the rebels of the Philippines. The prospect of an early peace that may involve a continuance of Spanish rule in the islands has alarmed Aguinaldo, the rebel leader. He realizes that it would go hard with him in case of his capture by the Spaniards, and is now anxious to come to terms with Gen. Merritt so that he may save his head. It would surprise no one here to learn of his being a suppliant for protection at the feet of the American commander. If he is to receive protection he will be required to conduct himself better in the future than he has in the past.

### Definitely Accepted.

New York, Aug. 6—Special—A Washington dispatch to the Evening Post says there is unquestionable authority for saying that news has reached the French embassy of the decision of the Madrid government to accept definitely the plan of peace proposed by the United States.

### Capt. Clarke Retired.

Washington, Aug. 6—Special—It is officially announced at the navy department that Captain Clarke, of the battle ship Oregon, has been condemned by the board of medical survey at Santiago, and Captain Barker, of the Newark, will succeed him in command of the Oregon.

### Departure Postponed.

Washington, Aug. 6—Special—It is said the work of transporting General Wade's provisional division to Porto Rico cannot be undertaken this month, as all transports will be required to bring Shafter's forces to the United States.

### A Charge of Inhumanity.

Madrid, Aug. 6—Special—An official dispatch from Santiago says there are six thousand sick and wounded Spanish soldiers in the town, and that they are inhumanly treated by the American officials.

### Yale Students' Battery.

Washington, Aug. 6—Special—Battery C, Connecticut light artillery, has been ordered to Porto Rico. It is composed of Yale students.

### A Standing Army.

Washington, Aug. 6—Special—Chairman Hull, of the house military committee, thinks a standing army of a hundred thousand men will be necessary after peace is brought about.

## ALL THE NEWS OF THE BADGER STATE

### NEW REFORMATORY AT GREEN BAY READY FOR OCCUPANCY

Inmates To Be Used In Completing The Structure—Reduced Fare Secured To Grand Army Encampment Diamond Match Company. Resumes Work—Pensions For Veterans.

Madison, Wis., Aug. 6.—The state board of control has formally notified the new state reformatory at Green Bay is ready for occupancy. This notice is necessary in order that the board shall receive the appropriation of \$5,000 a month, which the legislature made for it, for every month it should have the reformatory in operation before June 1, 1899. The buildings of the institutions are not complete, but a partially completed building which was on the land bought by the state, has been roofed over and partitioned, and prepared for inmates. When they have been placed there their labor will be utilized in the erection of the permanent buildings of the institution. Twenty-five boys from the state penitentiary will be removed to the reformatory some time this month.

#### Fare to Grand Encampment.

Madison, Aug. 6.—Department Commander C. H. Russell has issued an order from G. A. R. headquarters, showing that the rate from all points in Wisconsin to the National encampment will be one fare for the round trip to Chicago, added to the special \$6 rate from Chicago to Cincinnati and return. Tickets on sale September 3, 4 and 5, and on September 6 for trains arriving in Chicago in time to connect with trains for Cincinnati on that date. Tickets will be limited for return from Cincinnati to September 13, but an extension of this limit can be obtained to October 2 by depositing tickets not earlier than September 9, with the joint agent at Cincinnati, and payment to him a deposit fee of 25 cents.

E. B. Wolcott post, No. 1, Milwaukee, having offered its services as a care to the department commander to the National encampment, the offer is accepted, and E. B. Wolcott post will be the official escort.

#### Match Factory Starts Up.

Green Bay, Wis., Aug. 6.—The Diamond Match company's mill was started up again on Thursday with a full force. The engine, which broke several days ago, has been repaired. The time which the mill has been shut down was taken advantage of and many minor repairs have been made. A crew of about 200 men are given employment in and around the mill at the present time.

### Y. M. C. A. BAND PRAISED.

Delavan Assembly Was Pleased With the Music It Furnished.

The Delavan Republican gives the Janesville Y. M. C. A. band the following good send-off:

"The Y. M. C. A. band of Janesville arrived on the assembly grounds Saturday morning, remaining over Sunday, and proved to be one of the pleasant features of the assembly. They contributed several numbers to the program Saturday evening, and also furnished music for all the services Sunday. The boys, some twenty in number, presented a good appearance with their neat uniforms and shining instruments."

In its "Assembly Notes" the Republican says:

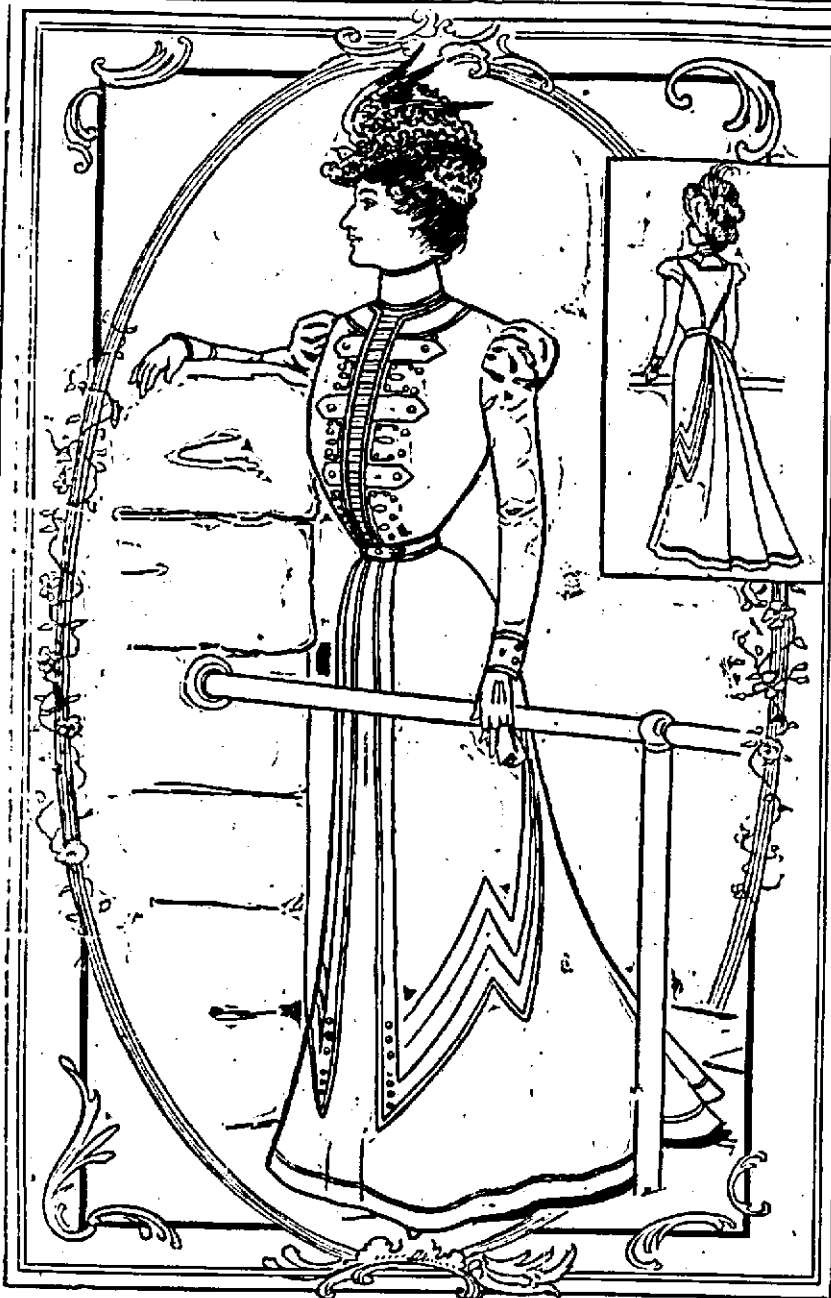

"The Janesville Y. M. C. A. band of twenty pieces, with Mr. Taylor as leader, furnished excellent music, Saturday and Sunday. They are now one of the best organizations of the kind in northern Wisconsin, and their music, whether on the grounds or in the auditorium, attracted many admirers."

SEA-SIDE COSTUME FROM HARPER'S BAZAR

The Parisian had this year: last go to extremes in watering place costumes, some of which are made in the most elaborate style, befitting and befitting to a degree that none but an eye witness would credit, while on the other hand there are walking costumes simple on the verge of austerity. The seaside costume illustrated herewith—taken from Harper's Bazar—is one of the latter character. It is made of dark blue velvet mounted over black silk. The skirt is of the attached flounce variety with tiny folds of black satin outlining the front and the top of the flounce. The waist is smoothly fitted with no trace of a blouse. The narrow cross-stuffed vest of white taffeta is bordered with buttoned tabs and small black satin scrolls. The band collar, which is of the highest choker type and the narrow belt are both made of the dress material with tiny black satin border lines.

### SCHOOL AFFAIRS DISCUSSED

Board of Education Holds Its August Meeting Last Night

The Board of Education held its regular monthly meeting last evening, at which bids for supplying the city schools with coal for the coming year were opened as follows:

	Per Ton
W. H. H. Macdonald	\$5.02
W. H. H. Macdonald	\$5.02
John W. Carpenter	\$5.74
Frank A. Taylor	\$6.00
Janesville Coal Co.	\$5.85

Mr. Macdonald received the contract. The resignation of H. O. Ruell as vice principal of the High school was accepted.

Miss Jessie Rossegue was named as a teacher to fill the vacancy created by the resignation of Miss Grace Miller in the Jefferson school.

The position of principal of the High school was abolished, and two teachers for the institution were recommended—John Dixon, of Milwaukee, and Charles Glyman, of Oakbrook.

The opening of the fall term was fixed for Monday, Sept. 12.

A petition signed by over one hundred residents of Spring Brook, asking that a school house be erected in that addition, was received and placed on file.

The report of the census enumerator, John Cunningham, was as follows:

### GEN. GRIFFIN IS DEFEATED

John J. Esch Secures the Delegates to the Seventh Congressional Convention

John J. Esch, the La Crosse candidate for the congressional nomination in the Seventh district, carried the Jackson county convention yesterday, and the ten delegates from that county, with the twenty-two from La Crosse, gave him thirty-two of the thirty-three votes necessary to secure the nomination. Gen. Griffin's defeat now seems inevitable. If the reports from other counties are to be credited to Monroe county, the former residence of Mr. Esch, has been reported as certain to elect delegates favorable to his nomination, and Monroe's thirteen votes would now give Mr. Esch more than a majority. Buffalo county, too, according to the latest reports, will be for Esch with its nine votes—giving him thus a total of 54 votes, and leaving for Gen. Griffin only Eau Claire, 16, Pepin, 5, and Trempealeau, 15, with no certainty that Esch will not get the delegates from one or both the last named counties. Dispatches from Black River Falls last night say that Mr. Esch's nomination is considered certain.

### GIANTS PLAYED GOOD BALL

Page Fence Colored Team Got Away With the Edgertonians

Local base ball talent failed to save the Edgerton team from defeat yesterday afternoon at the hands of the Page Fence Giants who easily defeated them by a score of 7 to 1. The game took place at Edgerton. Dixon, of this city, was in the box for the Edgerton team and did good work. George Wilbur, also of this city, was in the field playing his usual good game. For the occasion several outside players were brought in and still the Edgertonians failed to keep step with the hot pace set by their colored opponents, who easily took everything in sight. A delegation from this city numbering fully twenty was present.

### CONQUER YELLOW JACK, TOO

The Medical Record discusses the phase of the summer Spanish war:

"Now that there is no human enemy in our way our sanitary officers in the conquered provinces have an excellent opportunity to give to the world an object lesson in cleanliness. And we are perfectly confident that, with the fish of Santiago destroyed, the houses cleaned and disinfected, the infected huts burned, and our camps removed to the hills as far as may be possible, Gen. Vomito Negro will follow the lead of General Toral and yield to the inevitable. We have always believed that the chief reward to our country for undertaking this modern crusade against the Saracen, and one that will fully compensate us for the expenditure of blood and money, will be the liberation of our southern states from the constant menace of yellow fever. We are fighting not only for the freedom of Cuba from Spanish tyranny, but for the freedom of America from Spanish disease. The accomplishment of the first object is almost realized, and that of the second is plainly in sight."

### WANT AN ALLIANCE

At the meeting of the Anglo-American League held at London on motion of Lord Brassey the following resolution was adopted: "Considering that the people of the British empire and the United States are closely allied by blood, inherit the same literature and laws, hold the same principles of government, recognize the same ideals of freedom and humanity in the guidance of their national policy and are drawn together by strong common interests in many parts of the world, this meeting is of the opinion that every effort should be made in the interests of civilization and peace to secure the most cordial and constant cooperation on the part of the two nations."

The Racine Daily News says: "There is no longer any doubt as to Mr. Cooper's renomination. With a solid delegation from Racine county nothing can beat him. The other counties were waiting to hear from here, and upon the result depended whether or not other candidates would be placed in the field."

One of the lessons learned by naval authorities is that shells from the big guns are harmless when fired at earthworks. The Santiago engagements demonstrated the fact that no execution could be done against such fortifications.

The Racine Journal says that county is solid for Gov. Scofield. All the delegates are elected and all are standing by the administration.

The democrats are naturally in favor of a policy of expansion. The party is contracted about as much as it can be and live.

How did the results suit you?

The conventions come next.

## JANESVILLE SOLDIERS MAKING BEST OF CIRCUMSTANCES

They Are Compelled To Remain Quietly In Camp While They Wait To Go To the Front—Arrangements For the Comfort Of Those Who Are Sick.

Camp Cuba, Libre, Jacksonville, Fla., Aug. 6.—Five men of this man's company are on guard today. And the rest are out on the Riple range for practice postponed till Monday.

Privates Williams (Carl) and Wallis were on guard yesterday, and take their day off today, fishing.

The health of the men is about the same. It seems that malaria is in and won't get out readily. And if our mothers, sisters, sweethearts would only remember that while we are not seeing active service, we want to, and that these boys are doing their very best to be a credit to their families and their home team; and the well men are doing the work of the sick and need all encouragement—if these things would only be remembered by home correspondences I believe they would realize the justice of criticism on the letters they write. The boys may be a little homesick, a little anxious to go forward, back home—any thing rather than this dull life which most of them, didn't count on when they bravely volunteered to go to the front—would it not be better to try and "jolly them up?" Remind them and remember that, they are made of the same stuff as those men in front of Santiago, whose valor and dash have set a new standard to the organized armies of the world.

Would it not be better to write this way, than the sad, hopeless way so many of you are writing?

Artificer Schmitt is busy building mess and clothing boxes today.

Quartermaster Hill is overhauling a distribution of rifles and equipments that came to us this morning.

Some rumors of a proposed move north came to us today. We should be glad to get away from Florida.

Two bundles of things from Janesville came to us yesterday. Rather a queer looking lot when opened as several cans of oocoo were split. Fortunately nothing was injured and we thank the senders. The linen will go to the hospital and the stock men here have gladly taken pillows, towels and other articles. These packages are very welcome and are issued as carefully as possible to the allies.

The donations of kind friends, of cash, which have gone toward our hospital fund, are about exhausted. Reports of the expenditure show it is spent for medicines, ice, lemons, oranges, mosquito bar, chickens, etc. The latter are used for broth, it being known that our regular fare is rather coarse.

Many a queer home is being built in this new camp of ours; but the most peculiar are those where the tents are mounted ten feet in the air on uprights and reached by ladders, and under them is the mess table and general "parlor." They remind one of some of the houses of the queer people at the world's fair.

The Fifteenth Iowa has moved, and their camp is in our rear, now. It is supposed that our brigade will be all moved and put together here.

Jacksonville, Fla., Aug. 6.—Private Benjamin F. Hart, of Co. G, First regiment, died in the division hospital yesterday morning of peritonitis. He was one of the recruits who enlisted from Oregon. Hart was in the hospital only two days. The body will probably be sent north for burial.

## LATE NEWS BY TELEGRAPH.

## SPAIN'S ANSWER IS READY.

Official Notification Given to President McKinley.

SENT TO THE FRENCH EMBASSY

It Is Rumored That Premier Sagasta Has Accepted Our Terms—Cipher Dispatch Is Now Being Translated Into English.

Washington, Aug. 6.—Spain's reply to the terms imposed by the president as the price of a suspension of hostilities and the inauguration of negotiations for peace will be handed to President McKinley today. This statement is based upon information obtained at the French embassy. The reply was received in cipher and is now being translated. It is understood that the president has been officially informed that he may expect the reply today, and has been given the intimation that it is complete. This is gratifying news, as the administration, while confident that Spain would finally agree to the terms, anticipated more or less delay while the Madrid ministry was feeling its way with the people of Spain. The president was prepared for requests for further explanations of minor details—proposed more for the purpose of securing delay than for information. It is believed in administration circles that the reply is direct, complete and final.

If the conditions are accepted as named by the president orders will be immediately issued for a suspension of hostilities. Spanish sovereignty in Cuba, Porto Rico and other Spanish territory in the Caribbean sea will be surrendered. According to the conditions named in the president's reply of last Saturday, an island in the Ladrone group will be transferred to the United States for a naval station, and the American forces will be permitted to occupy and control the city, harbor and bay of Manila, pending the negotiation of peace. In consideration of these concessions the president will agree to refer the disposition of the Philippines and all other questions arising out of the war and not disposed of by Spain's reply to a peace commission to be composed of representatives of the United States and Spain to meet at Paris on a date acceptable to both nations. There will be no unnecessary delay in drawing this preliminary agreement. It is expected that Spain's reply will authorize Ambassador Cambon to act as her representative in the signing of this document.

The announcement that Spain's favorable reply had reached Washington was gratifying to the president and to every one here in official life, but to no one more than to the army officers, who have been apprehensive of the effect that publication of Shafter's "round robin" and Col. Roosevelt's letter on the conditions existing at Santiago would have upon the negotiations. It has been feared that, notwithstanding the press censorship of the Atlantic cables, Spain would be advised indirectly through one of the European nations that have shown an inclination to be friendly to her, and with the knowledge that nine men out of every ten in Gen. Shafter's army was sick she might choose to drop negotiations.

The officials of the war department, who were aware that from 10,000 to 15,000 well armed and equipped Spanish soldiers were at Holguin, about twenty-five miles distant from Santiago, ready to move at a moment's notice, felt the gravest apprehension for the safety of the American forces under Gen. Shafter. While it would have been impossible to get the information to them by wire, a Spanish sympathizer once outside the American lines could have reached Holguin in a day and informed the Spanish commander there of the opportunity offered at Santiago to annihilate the American forces and recover the territory surrendered by Gen. Toral. The Spanish prisoners taken at Santiago could have rendered the Holguin forces valuable assistance, and in the judgment of experienced army officers, if the conditions are as deplorable as stated, all the work accomplished by Shafter's army could be rendered valueless and the American soldiers either captured or massacred before they could be withdrawn or re-enforcements sent them.

Captain Clark Is Sent Home. Washington, Aug. 6.—Capt. Charles E. Clark, the commander of the battleship Oregon, has been condemned, to use the technical term, by a board of medical survey at Santiago and ordered to return to the United States on the first naval vessel leaving for an American port. Captain Clark has broken down under the terrible strain to which he has been subjected in the last four months. He will be granted leave of absence in which to recuperate, and if his health has not been restored on the expiration of the leave it will be necessary to place him on the retired list.

Indorsed by the President. Washington, Aug. 6.—W. Rankin and Harry Price of Cincinnati, O., the two young men who originated the idea of starting a fund among school children for the purpose of raising money to build a battleship called

who gave to them a letter indorsing their idea.

Standing Army of 100,000. Washington, Aug. 6.—Chairman Hull of the House military affairs committee thinks a standing army of 100,000 men will be necessary after peace is brought about. The status of the regular army will be one of the important subjects to be determined by the next congress, and during the recess Mr. Hull will frame a measure for submission to his committee for action as soon as it meets in December, so that early action may be had. Troops would be needed in Cuba, Porto Rico, and the Philippines, and in his opinion 100,000 regulars will be needed for some time to come.

Tells Him to Trust Uncle Sam. London, Aug. 6.—The Hongkong correspondent of the Daily Mail says: "The prospect of America abandoning the Philippines has well-nigh brought on a panic. The insurgent leaders are greatly dissatisfied with the Americans and British here."

"Mr. Wildman, the United States consul, has replied to Aguinaldo as follows: 'Trust to the honor and justice of the United States, and let nothing interfere with the first task of throwing off the Spanish yoke. I believe in you. Do not disappoint me.'"

Will Attack Spanish Coast.

Washington, Aug. 6.—Spain's delay in accepting the demands of the United States sent in response to the peace overtures presented by the French ambassador has apparently caused a renewal of the intention to send the eastern squadron to conduct operations against the enemy. It is understood that Admiral Sampson has been directed by telegraph to hold himself in readiness to proceed with a strong naval force wherever the government deemed it desirable to make a demonstration or strike a blow that would teach Spain that her cause is hopeless.

Eighty Illinois to Go to Cuba.

Springfield, Ill., Aug. 6.—Camp Janner will soon be a deserted military post for the second time since the war opened. It was vacated last night by the Ninth regiment, and Col. Marshall, commander of the Eighth, received orders from the war department to hold himself in readiness to move, with the assurance that he would be sent to Santiago de Cuba on the steamer Yale, leaving New York next Tuesday, to take the place of the First Illinois, which will be sent home.

Is Found in Good Condition.

Norfolk, Va., Aug. 6.—The Merritt Wrecking company has received advice from Santiago that make it certain the Infanta Maria Teresa has been floated and is in fairly good condition as to her machinery and boilers. She will shortly start for Norfolk under her own steam. Another expedition on the wrecking steamer Chapman will be sent Monday or Tuesday, carrying four immense pontoons, especially intended for raising the Cristobal Colon.

Powers Must Watch America.

Rome, Aug. 6.—After a careful survey of the results of the Spanish-American war the Italian Militaire remarks that the United States is now fully entitled to become an important factor in the concert of the great powers of the world, and that Europe will find that due consideration must be given to this new power. The paper predicts that this new state of things will cause a mighty reinforcement of all the European fleets.

Clergy Fear the Rebels.

London, Aug. 6.—The New York World correspondent cables that the Daily News correspondent at Rome in a dispatch last night declares the Vatican has given telegraphic instructions to the archbishop of Manila to place himself and the entire clergy under the protection of the United States, in view of his fears of an attack from the insurgents, who have threatened to massacre all Catholic priests.

Will Not Need a New Route.

Washington, Aug. 6.—War department officials say there is no basis for the report coming by the way of San Francisco that additional troops may be sent to Manila by way of the Suez canal. The plans for transporting troops in the usual way are going forward steadily, and Assistant Secretary Melkiejohn, having the matter in charge, says the Suez route will not be used.

France Affected by the War.

Paris, Aug. 6.—French seaports have suffered much from the war, and now watch with intense interest the peace preliminaries. The Bordeaux press and bourse believe that peace is unlikely before next week. The Echo of Madrid says much irritation has been caused over President McKinley's divulging the peace conditions.

Arms Are Landed in Cuba.

Key West, Fla., Aug. 6.—The steamship Wanderer returned here Friday after effecting a successful landing of arms and ammunition at a point about six miles east of Bahia Honda, at the mouth of the Manati river, province of Porto Principe, and at Porto Padre, in the same province.

Some time ago, a little bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy fell into my hands, just at a time when my two-year-old boy was terribly afflicted. His bowels were beyond control. We had tried many remedies, to no purpose, but the little bottle of Colic, Cholera and Diarrhoea Remedy speedily cured him.

## SPAIN YIELDS PORTO RICO.

Significant Order Sent Out from Madrid.

WOULD PREVENT BLOODSHED.

Sagasta Realizes That the Island Must Fall Into the Hands of the Americans, and He Deplores Unnecessary Loss of Life.

Paris, Aug. 6.—It is reported here that the Spanish government has given orders that the minister of war shall not force resistance in Porto Rico to the utmost.

This is at the instigation of Sagasta, who deplores unnecessary loss of life, knowing that Porto Rico will inevitably fall into the hands of the Americans. Captain-General Macias had been instructed to obtain the best terms possible and to save Spanish honor all he can, but to surrender.

LONDON FEARS A WAR.

Clash with Russia Expected—Indications That Hostilities Are Imminent.

London, Aug. 6.—The impression is growing here that Great Britain is hovering on the verge of hostilities with Russia. The last news is to the effect that Russia's action in moving her Black sea naval headquarters from Sebastopol to Nicolaev was due entirely to an apprehension of trouble with Great Britain.

Russia assumes that Britain would strike quickly and heavily at her nearest and most vulnerable points. If the Mediterranean fleet of Great Britain were to force, as it easily could, the passage of the Dardanelles, the Russian fleet would be at its mercy and the harbor of Sebastopol would furnish only a suicidal retreat, as did Santiago for Admiral Cervera. At Nicolaev, however, the Russian ships would be safe from destruction.

Russia is spending 90,000,000 rubles in naval construction, due, it is said, very largely to the belief that an Anglo-American understanding or alliance has been reached.

Strike Is Slowly Spreading.

Cleveland, O., Aug. 6.—About a dozen wire drawers in the Consolidated left their posts of duty Friday and joined the strikers. They are all non-union men. The only department of the American which is working is the rod mill, and material is piled so high in the yards that there will be no place to put rods after tonight. Members of the union are watching every joint and have sent committees to other mills operated by the trust, with the idea of striking them in their turn. The men say that they are reliably informed that the trust contemplates another cut of 20 per cent.

Jeffries Hurt in the Ring.

New York, Aug. 6.—Jim Jeffries, the California giant, who has defeated Peter Jackson and Tom Sharkey, and who aspires to the title of champion of the world, got the decision over Bob Armstrong in the first fight last night, but could not come to time when the affair with Steve O'Donnell was called. He claimed to have shattered the thumb of his left hand, and two physicians declared that he told the truth. Jeffries said the accident occurred in the first round.

Bismarck Memoirs to Appear.

London, Aug. 6.—The New York World correspondent cables that the Daily News Berlin correspondent says the Bismarck memoirs will be published before Christmas by the publishing house of Cotta of Leipzig. The memoirs were secured in 1891 by Privy Councillor Kroner, a member of the firm of publishers, who bound themselves not to break the seal of the packet containing the manuscript until eight or fourteen days after the death of the chancellor.

Paris, Aug. 6.—The Madrid correspondent of the Temps telegraphs that there is no danger of any uprisings in Spain. He adds that everybody is desirous of peace, "though profoundly deplored the necessity for making such great sacrifices."

**An Empress at Review.**  
An American woman who saw the empress of Germany and her regiment in review before the emperor confessed it was a beautiful tableau. After long lines of men and officers went by there was a sharp flourish of bugles, eight splendid men on gray horses, in white uniforms, flashing helmets and cuirasses, rode rapidly into view. Four were in front and four behind the empress, who rode alone. Her horse, bridle, saddle, and habit were pure white. Over the breast of her silver-laced riding jacket a row of medals gleamed, a sash of royal order was draped over one shoulder, two long white ostrich plumes streamed backward from her little cocked hat, and in one white gloved hand she held a shining drawn sword. "There was a spontaneous outburst of applause as she went swiftly by," said the American woman who saw it all, and saw, too, she said, the fiery young emperor's face relax for a moment, as well it might, at the sight of his wife's graceful figure, her smiling face, and her perfect control of the animal she rode.

**Women's Clothing.**  
Clothes should always fit properly, says a correspondent. If they hang loosely upon the wearer they will fail to adequately protect her from chills; while if, on the other hand, they are too tight, many evils may result from the constriction of the limbs, or worse still--of the internal organs. Tight sleeves, garters and boots are responsible for many evils arising from impeded circulation, while no words can be too strong in condemnation of the ruinous practice of constricting the waist by tight corsets. The lungs, heart and abdominal organs are all thus pushed out of place, causing present misery and frequently inducing permanent disease. Boots also are seldom made to fit the foot. If the reader will stand barefoot upon a sheet of paper, and mark the outline of her foot with a pencil, she will see at once how little it resembles the shape of the fashionable narrow-toed boot. Clothing, to fulfill its purpose, should always be made to fit the wearer--not the wearer forced to accommodate herself to her clothing.

**A Business Secret.**  
Mr. Isaacs--"I sell you dot coat at a grade sacrifice." Customer--"But you say that of all your goods. How do you make a living?" Mr. Isaacs--"Main friend, I makes a small profit on de paper and string."--New York Weekly.

**Poor Dear.**  
Mrs. Brown--So Mrs. Jones is nearly dead from insomnia? What is the cause of it? Mrs. Smith (Indignantly)--Why, her husband is the cause of it. He talks in his sleep, you know, and she has to lie awake all night trying to find out what he is saying, poor 'luz.
